Saint Rose Venerini

Rose Venerini was born in 1656 in Italy. She planned to get married, but her fiance died; she then joined a convent for a few months. After her father's death, she returned home to take care of her mother, whose death followed soon after. Rose began a prayer and catechesis group in her home. Her spiritual director told her that she should be a teacher. Rose had found her vocation; she started multiple schools in Italy, although there was opposition at first. They were successful. Lucia Filippini, who helped direct the schools, was also a future saint. Rose died in 1728. The teachers in her schools formed a congregation, the Venerini sisters, after her death.

Lord Jesus, our Teacher and Model,
You filled St. Rose with the Holy Spirit
to teach Your Word to many.
Grant us Your grace that we may courageously
follow Your example as she did. Amen.
