Food Allergy/Intolerance Information

Please list any foods to which your child is intolerant, allergic, or severely allergic, as well as the nature of your child's reaction to the food.

Food intolerant: the human body either can't digest the food that is ingested or that particular food is irritating to the digestive system causing a wide range of symptoms.

Food allergy: a reaction of the human body involving the immune system to a food-borne allergen introduced by inhalation, ingestion, or skin contact. A **sever food allergy** can be a dangerous or life-threatening reaction that requires immediate medical attention.

☐ No food allergy to report

FOOD:	Nature of allergic reaction to the food:

Student name _____ Grade _____

Parent/Guardian printed name _____
